

VoiceBot Dashboard

A comprehensive web-based dashboard for managing AI voice agents, call campaigns, and analytics. This interface provides a central command center for businesses using AI voice technology for customer interactions.

Overview

The VoiceBot Dashboard provides a streamlined interface for:

- Managing AI voice agents and their configurations
- Monitoring call history and performance metrics
- Managing phone numbers and integrations
- Creating and monitoring call campaigns
- Analyzing conversation insights and outcomes

Features

Agent Management

- Create and configure AI voice agents
- Customize agent personalities and voices
- Monitor agent performance metrics

Call Management

- View complete call history with detailed logs
- Filter calls by status, duration, and outcome
- Listen to call recordings and review transcripts

Knowledge Base

- Upload and manage knowledge sources for agents
- Create and edit FAQs and response templates
- Train agents with domain-specific information

Phone Numbers

- Provision and manage phone numbers
- Configure routing rules and schedules
- Set up IVR (Interactive Voice Response) systems

Campaign Management

- Create and schedule outbound call campaigns
- Upload contact lists and segment audiences
- Track campaign performance metrics

Analytics & Reporting

- View key performance indicators in real-time
- Analyze call outcomes and conversion rates
- Export reports for stakeholder presentations

Technical Details

Technologies Used

- HTML5
- CSS3
- JavaScript (Vanilla)
- Font Awesome for icons - Responsive design for mobile and desktop

Browser Compatibility

Tested and optimized for:

- Chrome (latest)
- Firefox (latest)
- Safari (latest)
- Edge (latest)

Technical Details

Technologies Used

- HTML5
- CSS3
- JavaScript (Vanilla)
- Font Awesome for icons
- Responsive design for mobile and desktop

External Resources

- Using external JavaScript and CSS scripts for functionality
- External libraries for UI components and interactions
- Font Awesome CDN for icons
- External resources for all dashboard links except the Pricing section

Browser Compatibility

Tested and optimized for:

- Chrome (latest)
- Firefox (latest)
- Safari (latest)
- Edge (latest)

Getting Started

1. Clone the repository:
2. Open `index.html` in your browser to view the dashboard
3. Log in using the following test credentials:
 - Username: demo@example.com
 - Password: password123

Development

This project is currently in active development. Future enhancements will include:

- Dark mode toggle
- Enhanced data visualization with charts
- Integration with backend APIs
- User role management
- Advanced filtering options
